

A collage of various food warming equipment from FWE, including large walk-in warmers, smaller countertop units, and rolling carts, interspersed with images of school lunch trays containing items like spaghetti, pizza, fruit, and vegetables. The central text reads "GUIDE TO K-12 SCHOOL FOOD SERVICE".

Things to Consider

What type of product
are you holding?

Is it a moisture-sensitive product?
(i.e. fried chicken, dumplings, side items)

What is the maximum capacity
needed at once during peak volume?

What containers do you use?
(i.e. hotel pans, sheet pans, disposables)

How often is product
pulled or reloaded?

How does access frequency
impact cabinet recovery?

Will the unit be transported
regularly or be stationary?

Will the unit navigate tight spaces,
doorways, various terrains, or slopes?

CUSTOMER TESTIMONIAL

Mukilteo
School District

MUKILTEO SCHOOL DISTRICT PRAISES FWE FOOD SERVICE EQUIPMENT

Our schools have been depending on FWE equipment to cook, hold and transport nutritious meals to our students for years. These units are built to stand up to the day-to-day abuse of a busy school kitchen and cafeteria. Specifically, FWE's retherm ovens have been a key addition to our school food service operation. The simple-to-use, intuitive design has exceeded our expectations and we would heartily recommend these products.

BRAD WALL / NUTRITION SERVICES MANAGER

BULK HOLDING

When the high-volume demand of school foodservice requires a short window of service time, the need to prepare ahead and hold food is vital. FWE heated holding cabinets help you take control of your schedule and provide a great variety of hot, flavorful, and nutritious meals. These mobile cabinets safely maintain food temperature and quality, reduce waste, and utilize high capacity adjustable universal slides that are removable for easy cleaning.

All of the below model series have **universal tray slides**, meaning they hold various size trays, pans, and Gastro-Norm.

Gentle Heat, Cost Effective, Reliable

"UHS" SERIES

- ▶ Tried & True Model Has Been Around 50+ Years
